# SONO-GEL

ULTRASOUND TRANSMISSION GEL

Specially formulated ultra transparent gel

- ☞ Hypoallergenic for all skins
- ☞ Water-soluble material permits a real and constant probe-skin contact
- ☞ Easy to use since it spreads easily and leaves skin smooth and soft
- ☞ Colourless - leaving no stain after application
- ☞ Its soft & non greasy material does not injure the instrument parts
- ☞ On completion it may be removed with a towel or tissue
- ☞ Available in assorted packings
